

Are you a PhD student or Postdoc looking for meaningful, paid teaching experience?

The Brilliant Club is a charity that seeks to increase access to highly selective universities by placing researchers in non-selective state schools, where they deliver a course of tutorials designed around their own, original research.

As a Brilliant Club tutor you will:

- 1 Get valuable teaching experience
- 2 Earn £450 per placement, plus travel expenses
- 3 Be trained by outstanding teachers
- 4 Design a course of 6 tutorials based on your research and deliver it to pupils at a non-selective state school
- 5 Gain experience of the Access/Widening Participation sector, and an understanding of the challenges facing the UK education system.
- 6 Become part of an active and growing community of like-minded researchers
